Ryzom - Bug # 1000

Status:	Closed	**Priority:**	Normal
Author:	rti	**Category:**	Build
Created:	06/28/2010	**Assignee:**	rti
Updated:	07/15/2010	**Due date:**	
Subject:	ft2build.h not found by FindFreetype		

Description

Like with libwww, freetype creates a include directory for all it's headers, but still puts one header (ft2build.h) in the include root dir.

    % find . -name freetype.h 2> /dev/null
    ./include/freetype2/freetype/freetype.h

    % find . -name ft2build.h 2> /dev/null
    ./include/ft2build.h

The cmake find script does not reflect that properly.
