Ryzom - Bug # 1383

Status:	New	**Priority:**	Normal
Author:	Potlatch	**Category:**	
Created:	10/25/2011	**Assignee:**	
Updated:	10/25/2011	**Due date:**	
Subject:	Crash at closing the official client (ryzom-core-0.8.1847~lucid1, src/interface_v3/group_html_webig.cpp:90 ?)		

Description

Runing Linux Ubuntu 10.04, using PPA from Kervala, 0.8.1847.

The client crashed when I closed the app.

BT attached.

History

#1 - 10/25/2011 11:42 am - kervala

Thanks for the report :)

It occurs in group_html_webig.cpp line 90.

I see 2 solutions :

- we need to stop the thread when exiting
- we need to add a mutex to access to "curlresult" static variable because it's accessed through several threads
