

Ryzom - Bug # 1466

Status:	New	Priority:	Normal
Author:	Botanic	Category:	
Created:	05/08/2012	Assignee:	
Updated:	05/08/2012	Due date:	
Subject:	Playing game on Touchscreen		
Description			
<p>The one main feature that is missing to play the game on a touchscreen is a "click to walk" function, where you click anywhere on the ground and walk to that point. This is especially important when the game works on tablets.</p>
