

Ryzom - Feature # 464

Status:	Closed	Priority:	Low
Author:	kervalva	Category:	NeL: General
Created:	03/31/2009	Assignee:	kervalva
Updated:	09/30/2010	Due date:	
Subject:	Support 64bits compilation under Windows		
Description			
<p>Most code is compiling under Visual C++ with a 64 bits compiler but assembler keyword <code>__asm</code> is not recognized anymore and some Win32 API types are different in 64 bits.</p> <p>This feature must add a x64 platform in NeL projects and fix compilation problems.</p> <p>We could optimize missing asm code later (with external .asm files or intrinsics).</p>			

History
