

## Ryzom - Feature # 543

<b>Status:</b>	New	<b>Priority:</b>	Low
<b>Author:</b>	sfb	<b>Category:</b>	
<b>Created:</b>	05/13/2009	<b>Assignee:</b>	
<b>Updated:</b>	09/29/2010	<b>Due date:</b>	
<b>Subject:</b>	Implement Google Breakpad for Displayers		
<b>Description</b>			
<p>Implement an "email function" for NeL displayers that submits crash information to Google Breakpad. Currently for NeL there is only one implementation in NLNET for sending crash reports:</p>			
<pre>email.cpp</pre>			
<pre>bool sendEmail (const string &amp;smtpServer, const string &amp;from, const string &amp;to, const string &amp;subject, const string &amp;body, const string &amp;attachedFile, bool onlyCheck)</pre>			
<p>You can see how it is configured in the displayer in service.cpp:</p>			
<pre>setReportEmailFunction ((void*)sendEmail);</pre>			
<p>Information about Google Breakpad can be found here:</p>			
<p><a href="http://code.google.com/p/google-breakpad/wiki/ClientDesign">http://code.google.com/p/google-breakpad/wiki/ClientDesign</a></p>			
<p>A very simple example implementation can be found here:</p>			
<p><a href="http://code.google.com/p/google-breakpad/source/browse/trunk/src/processor/testdata/test_app.cc">http://code.google.com/p/google-breakpad/source/browse/trunk/src/processor/testdata/test_app.cc</a></p>			

### History

- #1 - 09/29/2010 09:41 pm - kervalva
  - Project changed from NeL to Ryzom
  - Category deleted (Net)
  - Target version deleted (0.8.0)
