

Ryzom - Bug # 759

Status:	Closed	Priority:	Normal
Author:	sfb	Category:	Build
Created:	10/22/2009	Assignee:	sfb
Updated:	10/02/2010	Due date:	
Subject:	IDriver doesn't recognize _r and _d decoration		
Description	IDriver doesn't recognize _r and _d decoration. Fix this for CMake build environments or modify IDriver. Test case is that nl_sample_shapeview and cluster_viewer fail.		

History

The Linux loader doesn't want the libraries to be decorated. This can be confirmed by looking at the old DECORATE_NEL_LIB macro in nel.cmake - it is encompassed by an IF qualifier block. I moved the DEBUG_POSTFIX and RELEASE_POSTFIX properties to an SET_TARGET_PROPERTIES that is contained within a IF block.

I tested on Linux with cluster_viewer and nl_sample_shapeview successfully.
