

Ryzom - Bug # 830

Status:	Closed	Priority:	High
Author:	kervalva	Category:	OS: GNU/Linux
Created:	05/06/2010	Assignee:	kervalva
Updated:	09/30/2010	Due date:	
Subject:	setDisplay doesn't work as intended when we pass a window id under Linux		
Description			
<p>The first parameter for setDisplay is a void * but it should be a typedef to system specific type for a window (HWND under Windows and int under Linux). In Linux part of setDisplay, we also should reuse existing window instead of creating a new one.</p>
