Subject:	Remove/convert/update old projects		
Description			
<p>For some tools, there are .dsp and .dsw files for Visual C++ 6.0 or .vcproj for Visual C++ 7.1 or 8.0.</p> <p>We should convert them to Visual C++ 2008 (and fix their settings) and remove them after conversion.</p> <p>And for VC++ 2008 projects with only 32bits configuration, add a 64 bits one :)</p> <p>We could also remove old plain "Makefile" for NeL.</p>
