Subject:	ELuaExecuteError: No matching overload found, setContextHelpText		

Description

Using client build on linux against Lua 5.1.4-5 Luabind 0.9.0 some warnings are shown when I hoover over the menu icons:

> INF b5a0fa30 common.cpp 543 Exception <Unknown> : Exception will be launched: No matching overload found, candidates:
> void setContextHelpText(ucstring const&)
> WRN b5a0fa30 interface_manager.cpp 5717 executeLuaScript <Unknown> : ELuaExecuteError: No matching overload found, candidates:
> void setContextHelpText(ucstring const&)

This warnings are not shown for any menu-option (e.g. "System", "Help", "Communication" are working fine).

This is also a windows issue I will attach a example screenshot

#2 - 05/17/2010 07:20 pm - ThibG

The problem arises when getMilkoTooltipWithKey uses concatUCString.
I suspect it to be broken, probably because of CLuaIHM::push (lua_ihm.cpp:290).
