Ryzom - Bug # 904

Status:	Rejected	**Priority:**	Normal
Author:	kervala	**Category:**	Build
Created:	05/15/2010	**Assignee:**	
Updated:	06/14/2010	**Due date:**	
Subject:	CMake put /usr/local in nel-config when doing a package		
Description			

I compiled NeL, did a cpack -G DEB and all seems fine, excepted in "/usr/bin/nel-config" where all prefix folders were /usr/local instead of /usr

History

#1 - 05/15/2010 10:05 am - kervala

It seems like if we plan to create a .deb, we should also specify prefix to cmake with : -D"CMAKE_INSTALL_PREFIX=/usr"

#2 - 05/18/2010 10:25 am - vl

- Target version set to Version 0.8.0

#3 - 06/14/2010 10:34 am - kervala

- Status changed from New to Rejected

That's not to CMake/CPack to handle that. CPack in only a helper tool which should not be substituted to debhelper to create final packages.
