Ryzom - Bug # 905

Status:	Closed	**Priority:**	Normal
Author:	kerozcak	**Category:**	Services: General
Created:	05/15/2010	**Assignee:**	vl
Updated:	05/28/2010	**Due date:**	
Subject:	r2_login.php can't create log file on linux		

Description

in r2_login.php:
$logPath = $pathInfo['dirname'].$LogRelativePath;

there's no '/' at the end of dirname returned from pathinfo() which results with bad directory when $logRelativePath is set to './' - e.g.
/home/nevrax/code/ryzom/tools/server/www/login./ thus r2_login.php can't create a log file

Changing it to:
$logPath = $pathInfo['dirname'].'/'.$LogRelativePath;
resolves the problem
