Ryzom - Feature # 952

Status:	Rejected	**Priority:**	Normal
Author:	rti	**Category:**	NeL: General
Created:	05/31/2010	**Assignee:**	rti
Updated:	08/05/2010	**Due date:**	
Subject:	Use the same Mac key mapping with Cocoa and X11		

Description

The implementation of mapping from virtual key code to nel key code should be used in both, the x11 based and the cocoa based mac implementation.
