

Ryzom - Bug # 1139

Status:	New	Priority:	Normal
Author:	nimetu	Category:	
Created:	10/25/2010	Assignee:	
Updated:	10/25/2010	Due date:	
Subject:	backup_service double 'save_shard' prefix		
Description			
backup_service.cpp line ~535: std::string rfile=getBackupFileName(classes[i][j].File)			
classes.File already has correct path and so rfile is prefixed with double 'save_shard' (e.g. 'save_shard/save_shard/sdb/filename.ext')
