

Ryzom - Bug # 1256

Status:	Validated	Priority:	Low
Author:	dfighter	Category:	NeL: Sound
Created:	03/14/2011	Assignee:	kaetemi
Updated:	04/12/2012	Due date:	
Subject:	NEL sound tools		
Description			
<p>Apparently the NEL sound tools are not added to CMake so they are not ever built. One of them (source sound builder) uses MFC and is outdated so that won't work anyhow, until someone updates it.</p> <p>The file I'm including contains the CMake files for the tools that can be built just by adding them to CMake, and also a tool I made, to extract the samples from .sample_bank files.</p>			

History

#1 - 04/12/2012 08:26 pm - kaetemi

- Category changed from NeL: General to NeL: Sound
- Status changed from New to Validated
- Assignee set to kaetemi
- Priority changed from Normal to Low
