<b>Updated:</b>	12/07/2011	<b>Due date:</b>	
<b>Subject:</b>	Wrong NeL window position with Compiz		
<b>Description</b>			
<p>With Compiz window manager, windows positions can be adjusted so we can't compute the decoration size with current method.</p> <p>Instead, we should use <code>_NET_FRAME_EXTENTS</code> properties to get frame/decoration sizes.</p> <p>This bug can be very annoying because Compiz can move a window to another desktop and user won't be able to see the window.</p>			

### History

#### #1 - 10/15/2011 04:43 pm - kerval

- Status changed from Assigned to Resolved
- % Done changed from 0 to 100

Applied in changeset commit:84d49767b4c3.

#### #2 - 10/15/2011 04:43 pm - kerval

- Target version set to Version 0.9.0

#### #3 - 10/15/2011 04:44 pm - kerval
