Subject:	Add sound tools to CMake build.		
Description	Add the various NeL sound tools to the CMake build: <ul style="list-style-type: none">- build_samplebank- build_sound- build_soundbank- source_sounds_builder		

History

I skipped the *source_sounds_builder* tool since it is very out of date and API-incompatible with NLSOUND. This means that it went out of compatibility with NeL many many years ago. This is probably just dead weight right now. It also appears to be largely duplicated by *georges_plugin_sound* in functionality.
