I didn't yet commit servers changes, there are a lot more changes than on client side so it takes time to merge :)

Please could you confirm that all is compiling again ?

Btw there are a lot of new warnings I'll fix later.

I was running to this very error:

```
/home/ryzom/code/ryzom/server/src/ai_service/nf_grp_npc.cpp:2243: error: invalid initialization of reference of type 'ucstring&' from expression of type 'NLMISC::CSSString'
```

```
/home/ryzom/code/ryzom/common/src/game_share/send_chat.h:118: error: in passing argument 3 of 'void npcChatToChannelSentence(const TDataSetRow&, CChatGroup::TGroupType, ucstring&)'
```

Since your commit I've built it successfully on Ubuntu 10.04 32-bit, thank you!
