

Ryzom - Bug # 1467

Status:	New	Priority:	Normal
Author:	thannatos	Category:	OS: GNU/Linux
Created:	05/09/2012	Assignee:	
Updated:	05/10/2012	Due date:	
Subject:	Internet disconnected many seconds : terminate called after throwing an instance of 'char const**'		
Description	<p>I gone afk some minutes. While, I lost the wifi connexion. When I came back, I connected the computer back to the internet. After this, Ryzom didn't catch the change and though it still was wouthout network. I asked Ryzom to send me back to the character selection screen, but it didn't respond after. The terminal told me : terminate called after throwing an instance of 'char const**'</p> <p>This issue is reproducible, it happened twice (the previous time, I ordered my ADSL Box to reboot because of a lag).</p> <p>Do you want me to install the debugging package to launch it in GDB ?</p> <p>I run Ubuntu 12.10 amd64 via Ryzom from ppa:kervala/ppa for precise.</p>		

History

#1 - 05/09/2012 06:23 pm - thannatos

Oops I have ommited a line from the terminal :

```
terminate called after throwing an instance of 'char const**'  
Aborted (core dumped)
```

#2 - 05/09/2012 06:33 pm - thannatos

I have some additional informations :

```
ryzom_client crashed wiyj SIGABRT in raise()
```

```
raise() and abort() from [...] libc.so.6
```

```
__gnu_cxx::__verbose_terminate_handler() () , ??() and std::terminate() () from [...] libstdc++.so.6
```

For the crash file, where should I sent it ? The bug tracker is limited to 107Mb and my file is higher than 300Mb...

Hi !

Thanks for your report.

I don't think the crash file is useful in this case, because we already know it raised an exception.

Please could you post your client.log ?

Thanks.
