<b>Subject:</b>	porting Tools to Qt : Word_Dic		
<b>Description</b>	<p>I just gave it a try to port NeL Tools to Qt (version 4.4.3).</p> <p>Started with word_dic as it's a very simple tool, so if someone is willing to test it (on Linux / Mac ) and validate that the way i did it fits the needs, i could go on with some more interesting tools !</p>		

### History

#### #1 - 11/29/2008 12:55 pm - titegus

- File *word\_dic\_Qt-4.4.3.zip* added

(Updated)

#### #2 - 11/29/2008 01:07 pm - kaetemi

Would be nice if you could add a screenshot or two to compare them here. :)

#### #3 - 11/29/2008 02:00 pm - titegus

errr ... Actually i'm just trying to port the tools with the very same Look'n'Feel (dunno maybe size and all are important for desktop organization)

I guess many improvements could be added (like replacing the config file by a directory browser to locate the dic files and a combo for the language) or even new functionalities ( currently word\_dic just copy/paste the Dictionary entries into the clipboard...)

I think i will port first to be cross platform and once it's validated, we can go further :) !

#### #4 - 11/29/2008 02:06 pm - kaetemi

Heheh, ok, but I don't have Qt etc installed here right now, so it would be nice to have a screenie, so I could see the apps in action. Could be useful for later as well, once they get more documented etc. :)

#### #5 - 11/30/2008 01:06 am - titegus

- File *word\_dic\_FileList.png* added

- File *word\_dic\_LookUp.png* added

- File *NeL\_words\_en.txt* added

oki, so basically u just need to edit the words\_dic.cfg config file, for example :

WordsPath = "C:/dev/Nel/gamedata/language";  
LanguageCode = "en";

and run the application !

@Kaetemi : not sure we can really talk about an "app in action" tho :p

**#6 - 12/06/2008 05:47 pm - kervala**

- Status changed from New to Resolved
- % Done changed from 0 to 100

Applied in changeset r584.

**#7 - 12/06/2008 05:49 pm - kervala**

- Target version set to Version 0.7.0

I slightly changed UI and added containers for expanding correctly all widgets when the dialog is resized.

Thanks a lot titegus ! Good job :)

**#8 - 05/11/2009 05:10 pm - sfb**

Applied in changeset r1432.

**#9 - 05/11/2009 05:10 pm - sfb**

- Status changed from Resolved to Closed
- Assignee set to sfb

Added to CMake build environment when option WITH\_QT is specified.

**#10 - 09/29/2010 09:27 pm - kervala**

- Project changed from NeL to Ryzom
- Category deleted (Tools)
- Target version deleted (Version 0.7.0)

**#11 - 09/30/2010 11:41 am - kervala**

- Category set to Tools: General
- Target version set to Version 0.7.0
