<b>Subject:</b>	Port NeL to build via MinGW		
<b>Description</b>			
Port NeL to build via MinGW on Windows systems.			
<ul style="list-style-type: none"><li>- CMake will need to be updated to correctly build the libraries and link.</li><li>- The check IF will match MinGW on Windows</li><li>- Likewise IF matches Windows compilers.</li><li>- If you need to match MinGW specifically in CMake use: IF</li><li>- NeL makes overly liberal use of the NL_OS_WINDOWS and NL_OS_UNIX defines to block out platform specific code.</li></ul>
