

Ryzom - Feature # 685

Status:	New	Priority:	Normal
Author:	sfb	Category:	
Created:	09/03/2009	Assignee:	
Updated:	10/16/2010	Due date:	
Subject:	Add getMsgNb method to CBufFIFO.		
Description			
Per a todo note in buf_fifo.h:			
TODO: Add a method getMsgNb() that will return the number of messages in queue. For acceptable performance, it would need to store the current number instead of browsing the blocks.			
If we do not need or want this then we should clear this TODO out of the file before closing the issue.
