

Ryzom - Feature # 691

Status:	New	Priority:	Normal
Author:	lubos	Category:	
Created:	09/08/2009	Assignee:	
Updated:	09/29/2010	Due date:	
Subject:	Snowballs config in home dir		
Description	Patch copy config template from /etc/ into user's home dir.		

History

#1 - 09/08/2009 03:04 pm - lubos

- File *home-dir.diff* added

#2 - 09/08/2009 04:32 pm - sfb

- Target version set to 0.8.0

Since this patch adversely affects functionality on Windows I'll be moving this to 0.8.0.

Thanks lubos!

#3 - 09/08/2009 04:50 pm - kervalala

I think these functions could be added in NeL (perhaps in NLMISC::CPath) instead of Snowballs :)

#4 - 09/08/2009 06:20 pm - sfb

kervalala,

I agree. I have some magic I use in Werewolf for XP/Vista systems as well that I'd like to include.

#5 - 09/29/2010 09:44 pm - kervalala

- Project changed from NeL to Ryzom

- Category deleted (*Snowballs client*)

- Target version deleted (*0.8.0*)
