Ryzom API - Bug # 786

Status:	New	**Priority:**	High
Author:	kregora	**Category:**	
Created:	01/16/2010	**Assignee:**	
Updated:	01/16/2010	**Due date:**	
Subject:	Guild API keys cannot be regenerated		
Description			

It is not possible to generate new Guild API keys through the account management pages. There is no information given, if there exists a way to do that at all. The warning message after pressing the "Generate new keys" button suggests that all Keys would be updated, which isn't the case.
