

Ryzom - NeverEnding # 825

Status:	New	Priority:	Normal
Author:	vl	Category:	Build
Created:	04/30/2010	Assignee:	
Updated:	11/18/2010	Due date:	
Subject:	Remove all warnings when compiling Ryzom		
Description:			
Related issues:	duplicated by Ryzom - NeverEnding # 29: Fix compiler warnings Closed 09/03/2008		

History

#1 - 05/11/2010 09:59 pm - Letto

- File *warnings.diff* added

I managed to get off almost all the warnings when the client compiles with cmake with Debug up to 40%
I'm pretty sure those that remain are bugs.

#2 - 05/12/2010 09:25 am - Letto

- File *warning_v2.diff* added

Updated, patch after *cmake-stuff.diff*

Compile in Debug mode

<http://pastebin.com/nkwLZHL9>

#3 - 05/12/2010 10:30 am - jayme

- File *warnings-seven_zip.patch* added

Removed some warnings in *seven_zip* files...

#4 - 05/12/2010 10:39 am - ThibG

- File *neldebug.patch* added

#5 - 05/12/2010 11:41 am - ThibG

- File *nl_ct_debug.patch* added

#6 - 05/12/2010 01:24 pm - ThibG

- File *nel-warnings.patch* added

#7 - 05/14/2010 11:42 am - kerval

- File *deleted (nel-warnings.patch)*

#8 - 05/14/2010 11:43 am - kerval

Patch *nel-warnings.patch* applied and removed :) (to be sure it won't be applied a second time :p)

Thanks a lot ThibG :)

I will continue to apply them.

#9 - 05/14/2010 12:25 pm - kerval

- File *deleted (warnings.diff)*

#10 - 05/14/2010 01:52 pm - Letto

- File *nldebug2.patch added*

Here's a better nldebug patch that forces trailing ;

#11 - 05/14/2010 03:48 pm - jayme

- File *sp_type_string-const-to-char_warnings.patch added*

Removed a "deprecated conversion from string constant to 'char*'" warning from code/ryzom/common/src/game_share/sp_type.cpp

#12 - 05/14/2010 04:20 pm - Letto

- File *warnings_v3.diff added*

I managed to compile the client with these.

Includes vhsing's patches.

#13 - 05/15/2010 01:30 pm - Letto

- File *warnings_v4.diff added*

#14 - 05/15/2010 06:49 pm - vl

We applied some of warning, can you provide another patch with the latest repo?

#15 - 05/15/2010 07:38 pm - Letto

you have added lines like this wich i deleted in the latest version

```
nlwarning("Unknown light cycle state reached.");
```

Beware that this causes the client to continually print that message. Do you intend to fix that in some other way?

#16 - 05/16/2010 01:36 pm - ThibG

Please forget my neldebug and nl_ct_debug patches. They use variadic macros, which are part of the C99 specifications, but not part of C++.

#17 - 05/17/2010 10:30 am - jayme

- File *string_constant_to_char.patch added*

Removed some more "deprecated conversion from string constant to 'char*'" -warnings

#18 - 05/17/2010 01:58 pm - vl

string_constant_to_char.patch was applied on the repo

#19 - 06/11/2010 11:19 am - kerval

- File deleted (*string_constant_to_char.patch*)

#20 - 06/11/2010 11:20 am - kerval

- File deleted (*warnings-seven_zip.patch*)

#21 - 06/11/2010 11:22 am - kerval

- File deleted (*sp_type_string-const-to-char_warnings.patch*)

#22 - 06/21/2010 09:40 am - kerval

- Subject changed from *Remove all warning when compiling Ryzom on Linux* to *Remove all warning when compiling Ryzom*

#23 - 06/27/2010 01:09 pm - kerval

- File deleted (*nidebug2.patch*)

#24 - 06/27/2010 01:09 pm - kerval

- File deleted (*nl_ct_debug.patch*)

#25 - 06/27/2010 01:09 pm - kerval

- File deleted (*neldebug.patch*)

#26 - 08/21/2010 04:01 pm - kerval

- Subject changed from *Remove all warning when compiling Ryzom* to *Remove all warnings when compiling Ryzom*

#27 - 09/22/2010 11:07 am - abelgar

- File *warn_linux_gcc.patch* added

Here some warns check.

In diff, file *code/ryzom/server/src/ai_service/ai_entity_physical_inline.h* is weird. So be careful. Others are good.

#28 - 09/23/2010 03:24 pm - kerval

Thanks for your patch abelgar :)

#29 - 10/04/2010 09:18 pm - Naush

- File *nel-warning-1.diff* added

Some more, for NeL

#30 - 11/18/2010 02:34 pm - kerval

- Tracker changed from Feature to NeverEnding
