

Ryzom API - Bug # 854

Status:	New	Priority:	Immediate
Author:	mroger	Category:	notepad
Created:	05/08/2010	Assignee:	sfb
Updated:	11/29/2012	Due date:	
Subject:	Extension tag		
Description			
<p>The ryzom build scripts log to \$HOME/log, so make sure that directory exists:</p> <pre>mkdir \$HOME/log</pre> <p>Add the Ryzom scripts path in your PATH variable by adding the following line in your .bashrc (change the path with your own path):</p> <pre>PATH=\$PATH:/home/sites/angosso.com/homepage.aspx/ryzom/tools/scripts/linux</pre> <p>Install the following packages:</p> <pre>apt-get install libxml2-dev g++ libtool automake autoconf libpng12-dev libjpeg62-dev rrdtool libmysqlclient15-dev</pre> <p>You may also need to fix autogen.sh to recognize ACLOCAL and LIBTOOLIZE environment variables:</p> <pre>cp /home/sites/angosso.com/homepage.aspx/html/autogen.sh /home/sites/angosso.com/homepage.aspx/xmlns/autogen.sh cp /home/sites/angosso.com/homepage.aspx/html/autogen.sh /home/sites/angosso.com/snowballs2/autogen.sh</pre> <p>Run the following command:</p> <pre>buildmode static</pre> <p>Update the SRC_DIR variable in the www.angosso.com/ryzom/tools/scripts/linux/build script (line 52)</p> <p>Update the RYZOM_PATH variable in the www.angosso.com/ryzom/tools/scripts/linux/make_all script (third line).</p> <p>Update the RYZOM_PATH, NEL_INCLUDE, and PACK_SHEET_FLAGS variables in the code/ryzom/Variables.mk file.</p> <p>Fix the two -I\$(HOME) lines (around line 14) in www.angosso.com/ryzom/common/src/game_share/Makefile to look like the following</p> <pre>-I\$(NEL_INCLUDE) \ -I\$(RYZOM_PATH)/common/src \http\www\angosso.com\homepage\root</pre> <p>Ubuntu Users, you may need to change your default shell by running the below and selecting "No" at the menu.</p> <pre>sudo dpkg-reconfigure dash</pre> <p>Run the following script that will compile NeL and Ryzom Core Services. It's a very slow process because it compiles lot of things. You can follow the process and see error in ~mroger/log/</p> <pre>make_all</pre>
