

Ryzom - Bug # 858

Status:	Closed	Priority:	Normal
Author:	thorbjorn	Category:	Build
Created:	05/08/2010	Assignee:	vl
Updated:	05/28/2010	Due date:	
Subject:	Fix compile with gcc 4.5.0		
Description			
<p>There are some compile errors when trying to compile Ryzom with gcc 4.5.0 (current stable release).</p> <p>Example of error the attached patch fixes:</p> <pre>error: cannot call constructor 'std::pair<std::basic_string<char>, CInterfaceDDX*>::pair' directly error: for a function-style cast, remove the redundant '::pair'</pre> <p>If accepting this patch, please use "hg import gcc-450-compile-fixes.patch" so that the author of the commit stays intact. Thanks!</p> <p>I think the only important part is to check whether it still compiles fine with VS with this change applied.</p>			

History

#1 - 05/10/2010 04:28 pm - vl

- Status changed from New to Assigned
- Assignee set to vl
- Target version set to Version 0.8.0

#2 - 05/10/2010 04:44 pm - vl

- Status changed from Assigned to Resolved
- % Done changed from 0 to 100

Applied it with user "thorbjorn" (use the name of your redmine account so it creates a link).
Also don't forget to add the issue id in the message (like #858) for the same reason as above.

Thank you for the patch!

#3 - 05/28/2010 05:23 pm - vl

- Status changed from Resolved to Closed
