

Ryzom - Bug # 967

Status:	New	Priority:	Normal
Author:	Enoril	Category:	Client: General
Created:	06/07/2010	Assignee:	
Updated:	06/07/2010	Due date:	

Subject: The client windows don't update its position (x,y) according with the available screen area

Description

How generate this bug:

- switch to dual screen (bottom screen is the main screen, top screen is the extended screen),
- move client in windowed mode in 2nd screen (top)
- quit client
- position x,y of the windows is stored in configuration file
- deactivate dual screen (or reduce screen resolution)
- launch client
- > client is launch, invisible (because it is at the top) and can't be moved
